**Topic Question : How can we relate Ancient Egyptian life to our own lives?**

**Year: 3/4**

**Strand: Humanities Focus**

## What should I already know?

- Egypt is a country in the **continent** of Africa.
- The **climate** of Egypt is different to that of the UK.
- Human and physical geographical features of Egypt.
- What life was like in Stone Age Britain.

## Important Facts

- The Nile was important because it provided water for crops but also **fertile** soil - this means that people **settled** near the banks of the Nile as it was considered a prime location. They were among the first **civilisations** to use **irrigation** systems.
- The Nile also provided mud for bricks and pots, opportunities for fishing, papyrus reeds and a key means of transport.
- We know about **ancient** Egyptian life because of evidence such as the pyramids, the **artefacts** that were found there and methods of communications such as the use of **hieroglyphics** and **papyrus** rolls.
- Egyptian **society** was very **hierarchical** - this means that some groups of people were deemed more important than others. Each group had a different role to play in Egyptian **society**.
- **Mummification** was the process of **preserving** a body - this process was very important to the Egyptians as they believed this would prepare the body for their journey into the **afterlife**.
- The bodies of important people, such as **pharaohs**, were placed in these **pyramids**, which were built as **tombs**.
- Religion was very important in Ancient Egypt. They were **polytheists** - they believed in different gods and goddesses that were in charge of different parts of their lives. These were called **deities**.
