## Year 5/6 Home learning – Monday 6<sup>th</sup> April – Friday 17<sup>th</sup> April

Dear Parents/Carers,

Hope you are all keeping well and staying safe.

Every week, we will produce a document like this to help you with home learning. As you will see, there is an example timetable that you may choose to use. A routine is always useful but things will work differently for each of you depending on your set up at home and your own child/ren. We do not expect this to be followed rigidly, however you may wish to, which is of course absolutely fine. Equally, you may have seen other activities that you would like to do with your child/ren that are not part of the timetable, which is also fine. All of these activities do not require printing to take place and work can be completed within the exercise book provided.

We would advise, where possible, that the children at least read daily, carry out a daily maths activity, practise spellings/phonics and do an element of physical activity. Please continue to send photos via classdojo.

Teachers and TAs will call every family at least once a week to check in with you all and see how you are getting on. Teachers will ask to speak to the children too; we ask for you to be present when this is taking place.

Teachers will continue to be available via dojo between 8.30am and 3.30pm Monday to Friday should you have any further questions, updates or would like to share work with them.

Please remember that we are thinking of you all. Stay safe,

The staff at St Chad's

**As a school, we completely understand that the next couple of weeks are the Easter holidays. This structured timetable for the two weeks is **not essential** work and is **not expected** to be completed. However, we have found that for some families the weekly timetables have been effective for providing their child/ren with a daily structure. Therefore, if you would like your child to continue with parts of their learning, a weekly timetable and different resources that could be used has been provided below.**

**The project this week aims to provide opportunities for your child to learn more about different viewpoints. Learning may focus on physical viewpoints in terms of what you can see outside of the window at home, what others can see looking into your home and then progress onto personal viewpoints and of others.**

**Viewpoints and Mood**

Ask your child to look into a room in the home and think about how it makes them feel. They can then either draw something linked to how they feel when looking in the room or draw an object from the room and then colour, shade or paint it in a colour that reflects their current mood.

**Viewpoints from around the world**

Your child can research famous viewpoints from around the world (e.g. The Eiffel Tower). Ask them to draw what they think they would see from this viewpoint. After this, they can design and create a miniature scale of the landmarks that give these viewpoints. Encourage them to evaluate their creations.

**Debate**

Is good more powerful than evil? Is it worse to fail at something or never attempt it in the first place? Is it more important to be liked or respected? Ask your child to choose a question to answer, write a speech and use real -life examples to justify their opinion.

**Additional learning resources parents may wish to engage with**

The school home learning website is full of different resources and activities for the children to discover and explore. Have a look and see what takes their interest.
