“Learning to love, loving to learn.”

Year 5/6 Home learning – Monday 18th May – Friday 22nd May

Dear Parents/Carers,

Hope you are all keeping well and staying safe.

Every week, we will produce a document like this to help you with home learning. As you will see, there is an example timetable that you may choose to use. A routine is always useful but things will work differently for each of you depending on your set up at home and your own child/ren. We do not expect this to be followed rigidly, however you may wish to, which is of course absolutely fine. Equally, you may have seen other activities that you would like to do with your child/ren that are not part of the timetable, which is also fine. All of these activities do not require printing to take place and work can be completed within the exercise book provided.

We would advise, where possible, that the children at least read daily, carry out a daily maths activity, practise spellings/phonics and do an element of physical activity. We would love to hear about what you have been doing via dojo.

Teachers and TAs will call every family at least once a week to check in with you all and see how you are getting on. Teachers will ask to speak to the children too; we ask for you to be present when this is taking place.

Teachers will continue to be available via dojo between 8.30am and 3.30pm Monday to Friday should you have any further questions, updates or would like to share work with them.

Please remember that we are thinking of you all.

Stay safe,

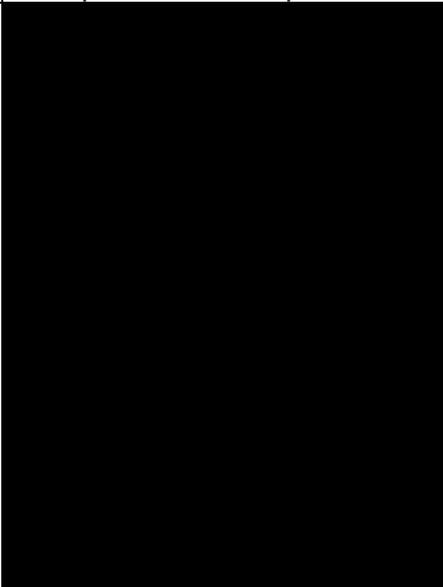

The staff at St Chad's

Please see class story on clasdojo and page 2 of this document for weblinks and spelling lists Whiterose maths resources will now be sent via Clasdojo

The project this week aims to provide opportunities for your child to learn more about famous or significant people. Learning may focus on past or present inventors, explorers or scientists and how they influence society today

<p>Famous Brits Lots of significant people in history have been British. Emmeline Pankhurst, Guy Fawkes and Mary Anning are just a few. Ask your child to research one of these or another famous Brit of their choice. They could create a fact file, a presentation, a chronological report of their life or present their research in any way they like.</p>	<p>The Queen's Speech The Queen spoke to the nation on Sunday 5th April from Windsor Castle. She had an important speech to deliver where she wanted to thank people for what they were doing and to give hope that things would eventually return to normal. Ask your child to think about what they would say if they had to speak to the nation? What messages of hope would they want to give to their friends and family? Your child could write their speech or record themselves delivering their speech.</p>	<p>Significant to Me Discuss with your child a person who is significant to them. This could be a famous person who has inspired them or someone who has made a positive impact on them from their everyday life. Ask them to discuss the attributes that this person has - why are they inspiring? You could share someone who is significant to you with your child as well and talk about how they have influenced you. They may wish to draw a portrait of this person.</p>
<p>What it Takes! Ask your child to watch this interview with Paralympic gold medallist Helena Lucas. In this interview it talks about the dedication needed to be a successful sportsperson. Direct your child to set themselves a goal to work on every day. They could create a poster outlining their goal and the steps they will take each day to work towards it. They may want to include steps they will take when they return to school</p>	<p>Inspiration for Inventors These inventors talk about where they found the inspiration for their inventions. Ask your child what problems they incur in their daily life? What inventions would make their life easier? How could they turn their idea into a product? Direct your child to mind map ideas of how they could solve their problem before designing and annotating a product. Your child may even want to make a prototype or test parts of their design to see if it would work.</p>
