Dear Parents/Carers,

Healthy Sandwich Making DT Project

As the final product for the end of our families' topic this term, we will be planning and making a healthy snack for our family to enjoy. We will use everything we have learnt about families and food to do this.

The children will understand how to prepare foods hygienically. They will also plan, design and make their healthy sandwich to meet our specification. Finally, the children will evaluate their healthy sandwiches by thinking about what went well and what they could do to improve next time.

We will be making our healthy sandwiches on Monday 7th December 2020 so please could you provide your child with a Tupperware style container so that they can bring their healthy snacks home to enjoy.

The foods that we will be providing in order for the children to make their healthy sandwich include: bread, butter, ham, cheese, tuna, sweetcorn, tomatoes, lettuce, cucumber and peppers. Please could you let me know if there are any allergies etc. with the foods that we will be using.

If you have any queries, please do not hesitate to get in contact.

We are looking forward to making our healthy sandwiches.

Mrs Ives and Miss Lester.
