

ANTARCTIC FIRE ANGELS

We are training to ski 1,130 km from the coast of Antarctica to the South Pole in November 2023.

We will be journeying unassisted and unsupported, pulling 85kg+ pulks (supply sleds) in temperatures as low as -50c with possible wind speeds of over 60 mph in approximately 45 days

ASSEMBLIES MONDAY MAY 15th

To Book an Assembly slot with these amazing ladies on please contact:
Mary.zlobec-short@uwe.ac.uk

These assemblies will be allocated on a first come first serve basis and accredited with Childrens University learning hours.

The Why

Historically women and girls have been stereotyped into certain roles and are therefore unaware of their own capabilities outside of these boundaries. We intend on challenging that concepts and showing what women are capable of. When we were growing up, we didn't see any representation of female firefighters or female adventurers, and we therefore didn't really know these options were available to us. We intend on being visible role models to women and girls, as you can't be what you can't see!
